## WORK EXPERIENCE

---

### S2N Pixel Co., Ltd. | Developer Intern

Developed an e-commerce website using the Adonis.js framework. Gained hands-on experience in full-stack web development with both Adonis.js and Laravel.

Learned to use Sourcetree for Git version control, and worked with Redis, Bull (queue management), and Pusher (real-time notifications) to build scalable and real-time features.

## PROJECT

---

### VendorVerse – E-commerce Web Platform

#### Senior Project @ Naresuan University, 2024–2025

A web-based platform that allows small to medium-sized businesses to create customizable online stores and restaurant websites with real-time ordering features.

- Developed using React.js (frontend) and Express.js + TypeScript (backend)
- Built dynamic UI and CMS-style editing features for storefront customization
- Integrated QR code-based ordering for restaurants with live order updates
- Implemented analytics dashboard for tracking daily and monthly sales
